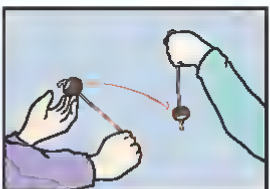
Conkers Game



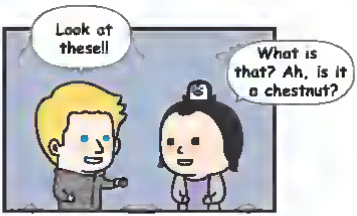
The conkers game!
After you thread a conker with
a shoe lace you hit someone
else's conker and try ta break it.

We filled up out pockets
with the nuts and went back home.

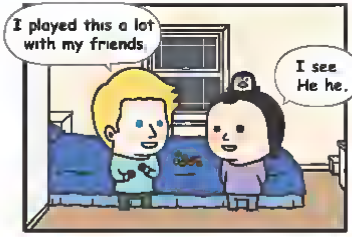
Mev remembered
what they were called.

These conkers reminded Mev
about a game.

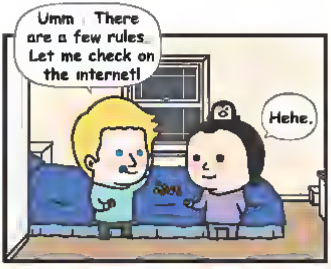
After we were on our way back home after eating out...



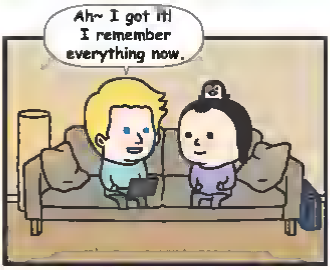
we found lots of nuts that looked like chestnuts on the street.



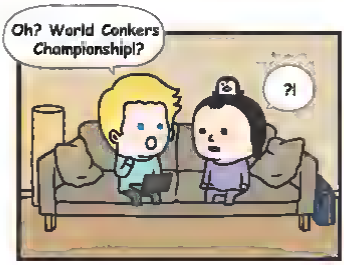
He said he used to play this a lot in school in autumn time.



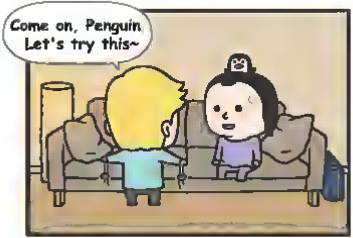
Mev was so excited



Finally Mev checked the rules
on the internet.

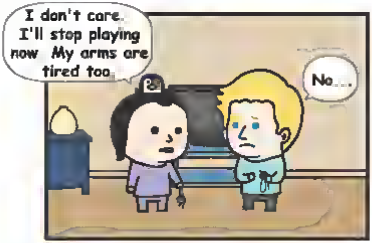


Then he found the news that
there would be a world conkers competition
in the county where we are living.



He made holes in conkers quickly and asked me to help him practice.

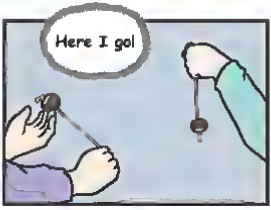
After a while,...



... I felt bored and tired so
I was about to stop playing the game.

But he used his strongest skill on me.

And he succeeded in making me play the game more.



Here I go!

Ah... Ahah....
Not that nut...
